Class List & Combinations

The event will cater to the nominated classes, which are planned to run concurrently in combined races (Groups) as outlined in the provisional race schedule. These race Groups will be repeated throughout the duration of the event. Competitors will be scored separately within their respective entered classes.

Cross-entering of a single machine across multiple classes is strictly at the discretion of the Club (Hartwell Motorcycle Club) and will be assessed against the operational complexity of the event. Any variations to the published race order and class structures are at the absolute discretion of the Club and the Clerk of Course.

In accordance with the current MA MoMS, the Clerk of Course and the Club retain the operational authority to run multiple classes concurrently on track, provided track density limits and safety protocols regarding speed differentials are maintained.

For specific mixed grids, the Clerk of Course may utilize a delayed split start. Additionally, a reversed grid format may be implemented at the Clerk of Course's discretion to ensure competitive parity and optimal on-track safety. The Club reserves the right to combine, split, or cancel any class based on entry numbers (in accordance with the minimum grid requirements outlined in the MoMS) and the operational constraints of the provisional program.
